

The Super Sky Cycle

“A Flying Motorcycle”

US Patent No. 6,978,969 was issued on Dec. 27, 2005 on this Fly-Drive Vehicle.

The **SSC** is a **Road-able Rotorcraft** that fits in your garage, drives down the road as a three wheeled motorcycle, and flies through the air as a gyroplane. This patented design lets you turn off the drive engine, fold the rotor over the top, and drive your “Flying Motorcycle” home.

Dimensions

Height 8’ 6” or 7’ 9” (lowers down for garage)
Length: 15’ 8”, Width: 84”.

The G-Force Landing Gear & Metro Launch System pre rotator are included.

Engines

100 hp & 115 hp turbocharged models available.
Rotax 912ULS SSCycle Kit Price:.....\$50,995.00
Rotax 115 hp turbo SSCycle kit:.....\$61,995.00

Takeoff from a field anywhere you have permission. An airport runway isn’t needed.

Enjoy seeing the world with an unobstructed view from the Super Sky Cycle.

The Super Sky Cycle is a high performance gyroplane in flight. VNE is 100 mph.

Land virtually anywhere. The G-Force Landing Gear lets you do a short roll landing.
