SPACE AGE TRIKE
THE LAST BIG SPLASH
WHO'S ON FIRST?

Space Age Trike Visits AirVenture and Sturgis

VALORIE WHITE
EXECUTIVE VICE PRESIDENT
THE BUTTERFLY LLC

"The new production model of the Super Sky Cycle made it debut at EAA's Airventure in Wisconsin and at the Sturgis Bike Rally in South Dakota", said Valorie White, Executive Vice President of The Butterfly LLC.

Valorie presented the new production Super Sky Cycle at the Road-able Aircraft Forum on

Friday night in the Remos pavilion. The SSC was the only fly-drive vehicle that drove to the forum.

The SSC was also shown at the Sturgis Bike Rally and placed second place in the Big Daddy Rats Custom Bike Show in the Most Unusual class on Thursday.

The SSC was also a hit on Main Street with thousands of other bikes and was possibly the most photographed single bike at the event. Elvis also liked the SSC and was available for pictures.

Channel 10 news, an NBC affiliate, did an interview on the flying motorcycle on Friday.

The SSC made history this year as it is the first Fly-Drive Vehicle to visit a major air show and then a major bike rally and was accepted at both events.

White said more information may be obtained from: www.thebutterflyllc.com
