### FOR IMMEDIATE RELEASE

July 26, 2010

#### Civilian Border Patrol in Arizona

The Butterfly Aircraft LLC has partnered with C-BAD LLC (Civilian-Border Air Defense) in Arizona to provide Aurora gyroplanes for use to patrol the Arizona/Mexico border in Pima County. The local Sheriff's Office Helicopter Sergeant has welcomed the civilian aviators to help locate and report illegal border crossings.

Lloyd Love and Shawn Reardon have started the donation funded LLC in an attempt as civilians to help secure the borders by actively patrolling the Pima County border and they are driven by patriotism.

"It's time we as Americans start doing what we feel God is directing us to do as individuals in helping secure our borders from illegal traffic coming into our great country", said Lloyd Love.

"We have the vision and are willing to apply ourselves full time to this vital project and we believe the American people will stand behind us financially and allow us to make a difference", said Lloyd.

"We believe that Americans across the country will donate to this cause and allow us to eventually purchase about 30 of the purpose built aircraft and help secure the border in all the 13 counties that border Mexico", said Shawn Reardon.

"We chose the Aurora Butterfly gyroplane because it is an inexpensive aircraft to buy and maintain, has a 100 hp aircraft engine, and only burns about \$12.00 worth of unleaded car gasoline per hour. The Aurora doesn't need an aircraft runway to takeoff and land and the visibility is unlimited. The Aurora can easily fly in up to 50 mph winds and can stay airborne for over 4 hours at a time", said Shawn.

Anyone that feels compelled to help fund what these Patriotic men are doing can contact them at: phone: 602-904-5577 email: [civilianborderairdefense@gmail.com](mailto:civilianborderairdefense@gmail.com)
